Blowing Bottle System

Sleeve Label→Bottle Dryer→Laser Printer→Film Shrink Packaging→Finished

Production

3、该生产线用于塑料瓶装纯净水、矿泉水等饮料的生产，可根据客户要求及产量定制 2000-36000 瓶/每小时的生产线，整条生产线包括储水罐、水处理、吹瓶机、风送、灌装机、灯检、套标机、吹干机、打码机、膜包机、输送系统等，自动化程度可根据客户要求配置，整套设备设计先进，电器部分采用国际或国内知名品牌，提供工艺流程及车间布局设计，全程技术指导。

4、This production line is used for the production of pure and mineral water in PET bottles. We can customize production lines ranging from 2,000 to 36,000 bottles per hour based on customer requirements and production volume. The entire line includes a water storage tank, water treatment system, blow molding machine, air conveyor, filling, light inspection, labeling machine, bottle dryer, laser printer, film shrink packaging, and conveyor system.

The level of automation can be customized to meet customer requirements. The entire equipment package features advanced design, with electrical components from renowned international and domestic brands. We provide process flow and workshop layout design, and provide comprehensive technical guidance.

4、可选配置:

水处理机组:纯净水/矿泉水/功能水等

瓶身标签:套标/贴标

喷码:激光喷码/油墨喷码

包装:纸箱/PE 膜

Optional Configurations:

Water Treatment Unit: Pure Water/Mineral Water/Functional Water, etc.

Bottle Labeling: Sleeve Labeling/Stick Labeling

Inkjet Printing: Laser Printing/Ink Printing

Packaging: Carton/PE Film
